

How to make:

# Adjustable Viewfinder

Let's have a closer look!

# Art

1

## Gather supplies

you need:  
scissors  
a ruler  
pencil  
thick paper

Art

2

## Cut a rectangle

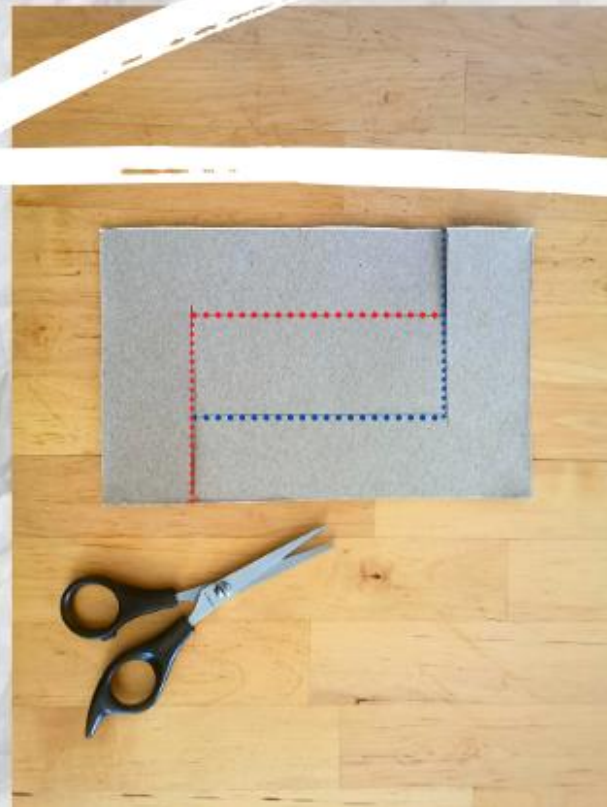

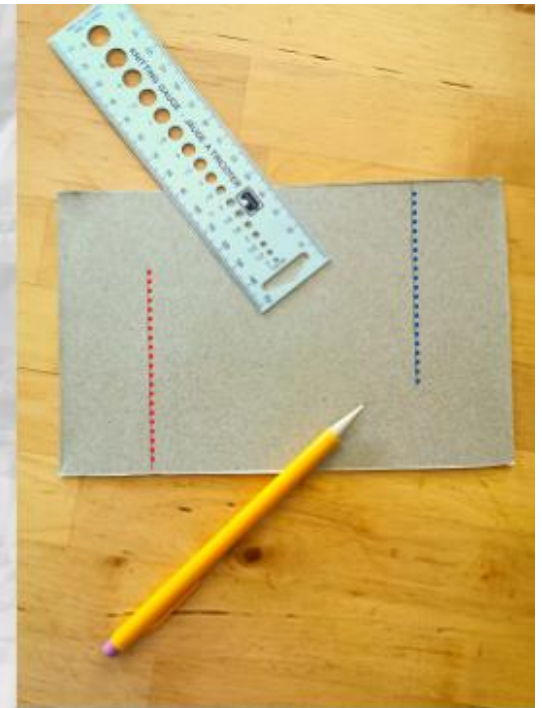

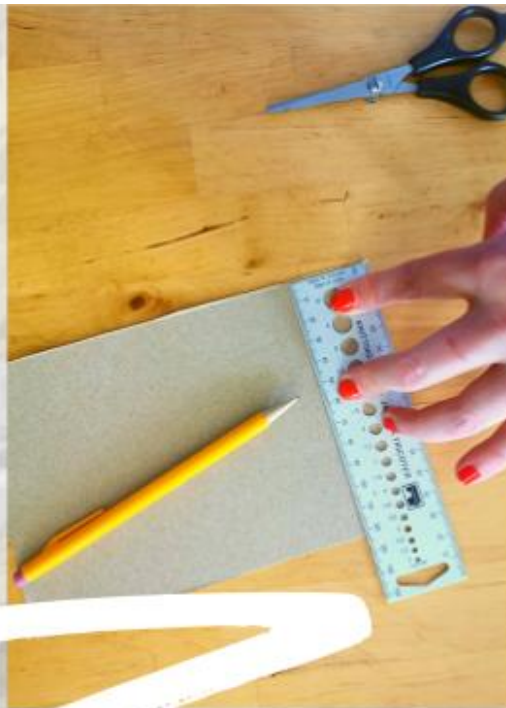

You can use the folds of the box or a ruler to get the sides straight. Your rectangle should be around 5" x 7".

Cracker boxes work well :)

3

Draw & cut two  
L-shapes, one  
backwards

Art

4

Enjoy!

Use your adjustable viewfinder to spot new details & frame future pictures.
