

Begin by gathering your materials.

You will need:

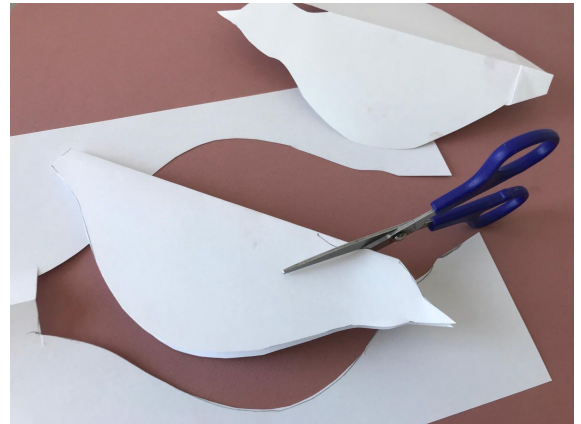

- Robin pattern (available on our website for printing)
- Several sheets of cardstock or a cereal box
- Pencil
- Scissors
- Something to colour with (such as paints, pencil crayons, coloured chalk)
- Stapler and glue or tape to hold your Robin together
- String

1) Print out and cut the Robin pattern

2) Start with the “robin body.”

Fold your paper/cardboard in half and use a pencil to trace the lines with the “back” against the fold.

3) Cut out the body. It should look like the image on the left.

4) Colour your robin

Remember that the belly is red, the body brown or gray, and the beak is yellow.
